FOR IMMEDIATE RELEASE

Matthews Marking Systems to Demonstrate Centralized Connectivity Success with MPERIA™ at NPE Orlando

MPERIA™ Technology centralizes control of marking and coding automation across lines and across plants

Pittsburgh, PA (March 2018) – Matthews Marking Systems, a Matthews International Company and global supplier of industrial printing solutions, will be showcasing a variety of systems that are ideal for the plastics industry at the NPE show. The plastic industry focused show happens every 3 years in Orlando, FL and is the biggest plastics expo in the Western hemisphere.

Matthews Marking Systems provides marking and coding solutions for plastic applications of all kinds. In total, there will be seven marking system demonstrations being held at the booth: 3 laser inscribing technologies, 1 Drop-on-Demand (DOD), and 3 thermal ink jet (TIJ) technologies. All seven systems will be controlled by the MPREIA™ software at the same time, something no other industry competitor has the ability to do. Matthews Marking offers the widest range of marking technologies available for plastic product manufacturers.

Press Release

To further exhibit the diversity of Matthews' products, each station will be printing, coding or marking on a variety of applications that are specific to plastic substrates.

Whether it's PVC plastic, thin plastic films, or plastic beverage bottles, marking and coding made by Matthews' systems are clear and defined.

Matthews Marking Systems will be in booth #W8263 in the West Hall on level 2. The NPE Plastics Show is held at the Orange County Convention Center in Orlando, FL, May 7-11, 2018.
