FOR IMMEDIATE RELEASE

Matthews Marking Systems Brings Solutions for Tire Marking and Coding to ITEC 2018

Matthews will be exhibiting in booth #326 at ITEC in Akron, OH September 11-13, 2018

Pittsburgh, PA (August 16, 2018) – Matthews Marking Systems, a Matthews International company and global supplier of marking and coding solutions for the tire and tread market, will be exhibiting at the ITEC show in Akron, OH September 11-13, 2018 in booth #326. Matthews offers a unique large character inkjet printing system developed specifically for printing onto uncured rubber, where the ink must withstand the curing process essential for tire and tread marking. At the show, Matthews will have on display its ACIS (Agitating & Circulating Ink System). Its robust design significantly reduces the time required to clean and maintain equipment by utilizing HAPS free, quick-dry, white pigmented inks that do not transfer to the rubber mold. For more information on Matthews Marking Systems solutions for tire and tread marking, stop by booth #326 at the ITEC show in Akron, OH September 11th-13th.
