FOR IMMEDIATE RELEASE

Matthews Marking Systems Donates CPG Printer to University in New Orleans

Matthews Donates Thermal Inkjet Marking System to Food Sciences Program at University of Holy Cross in New Orleans, LA

Wilsonville, OR (August 14, 2018) – Matthews Marking Systems, a Matthews International company and global supplier of printing solutions for the CPG market, is set to donate a thermal inkjet (TIJ) printing system to the University of Holy Cross' Food Sciences Program later this month.

The system donated to the University is Matthews' VIAjet™ L-Series L25, a high-resolution thermal inkjet printhead that is ideal for marking on primary packaging, a significant portion of the Food Science Program, along with a MPERIA® Lite controller. The MPERIA Lite is Matthews' most compact controller, which can manage multiple print technologies all from one single interface. The MPERIA marking and coding automation platform centralizes control of primary, secondary and tertiary marking. In addition to donating a system, Matthews Marking experts are scheduled to present industry solutions for marking and coding packaged goods to the program's group on August 29th, 2018.

For more information, contact Jennifer Adams at Matthews Marking Systems at 971.224.1616, jeadams@matw.com or visit matthewsmarking.com.
